

# SC PRO

## Technique Analysis Made Easy

Siliconcoach Pro 7 (SC Pro) is the latest progression of over 15 years of development and boosts our full range of features for analysing movement and providing detailed feedback to enhance performance.

Proven to be simpler and more affordable than comparable products, SC Pro is the leader in video analysis technology.

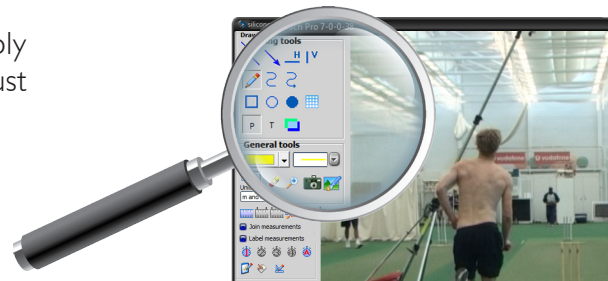

### Dual Video Capture

Capture video 'live' from 2 cameras' for another view of the action.

### Time, Angle, Distance and Speed Tools

For measuring and highlighting key points or simply step through the video frame by frame to see just what is happening.

### Compare Videos

Use dual screen, quad screen or overlay to compare videos.

### Create presentations

Record visual and verbal feedback. Rather than describing movement, you can visually show it.

# Siliconcoach PRO

## Here are some of the features

- Dual capture - capture from two Mini DV cameras at the same time.
- License Management System- move your license from one PC to another PC.
- Import video from multiple sources e.g. MPEG 2, MPEG 4 and AVCHD.
- Export presentations to iTunes and Siliconcoach Live.
- Measure and highlight key points with various draw tools available.
- Video Overlay - Overlay your videos to compare technique.
- Synchronise multiple video clips for side-by-side or overlaid comparison.
- Build a presentation with simple-to-use templates.
- Record verbal and visual feedback over the top of a video, save and send via email.
- Screenshot, capture your onscreen analysis and save as a jpeg that can be used in reports.

“Siliconcoach does exactly what a technical analysis package should do. The biggest selling point is its ease of use.”

David Rose - Performance Analysis Manager,  
England Cricket Board
